

# Mesa Panels

*Providing Custom Solutions to your high energy cost problems*

## Automatic Networks

**Call Now**  
**1-800-663-9414**

Streamline your mill with our computerized networks. Increase efficiency and get rid of the headache of doing the math, let the computer do it! With one touch of a button, the saw head will lower to a preset depth. You don't have to do it manually and there are none of the usual fine adjustments required when doing it manually. Improve your mill's speed & have consistent cuts.

### Get the control you have always wanted!

- 12 programmable set points
- Recall returns to adjustable set point
- Digital display
- Exact positioning of saw blade
- Band, Carraige & Other Saws
- Definable units, (i.e. Inches, cm, etc.)
- User friendly setup and usage
- Adaptable to all movable head saws
- Contact closure output for hydraulic or electrical control applications
- Factory configurable for custom applications
- Edger Networks also available (Horizotal & Vertical)
